

DE COTERIE

At De Coterie, we celebrate the best of European and local products. The fish is sourced from the North Sea and European waters, our meat is from European pastures and the herbs and flowers are hand-picked by our team just around the corner in Wassenaar.

In addition to using local products, we focus on seasonal ingredients. Ensuring our menu evolves throughout the year with the freshest flavors each season has to offer.

Our menu is designed to discover flavors so we encourage you to share the dishes.
